

Security Policy.

Security is our fundamental operational priority. Airmaster Airlines is committed to protect and safeguard Cargo shipments, crewmembers, ground personnel and aircraft against acts of unlawful interference whether they are on ground or in air and so protecting the common assets from loss, fraud, intentionally damages and other criminal acts.

Our commitment is to:

1. **Establish** and maintain security management system (SeMS) to ensure supervision and control of functions and activities associated with the security program and comply with security standards of Airmaster Airlines and requirements of National Aviation Security Program of Egypt and other relevant states.
2. **Provide** necessary resources for the successful implementation of security policy and conduct periodic review of that policy to ensure continuing relevance to Airmaster Airlines.
3. **Comply** with applicable Aviation Security (AVSEC) regulations and standards of Airmaster Airlines and adopt industry best practices for security management.
4. **Establish** culture of security awareness among all staff by emphasizing that security is a common teamwork responsibility.
5. **Continually** review and improve the security management system to ensure the most efficient and effective application of the security program.
6. **Establish** security objectives and security performance standards
7. **Ensure** that all security operations are conducted with acceptable standard of quality by security quality control to ensure integrity of operations performance.
8. **Ensure** that all staff receive aviation security training to ensure that they are aware of and understand their duties and responsibilities with respect to aviation security procedures.
9. **Ensure** that no action will be taken against any employee who discloses inadvertent human error unless such disclosure or willful disregard of regulations of duties and responsibilities.
10. **Ensure** security services provided by external service providers meet our security principles and standards outlined in Airmaster Airlines security program.
11. **Ensure** effectiveness of secured communication system that permits a free flow of information throughout all areas of Airmaster Airlines.
